

[4] Recovery Rebate Credit: Americans were thrilled last March to hear they were getting a third stimulus check in 2021. Those checks were for up to \$1,400, plus an additional \$1,400 for each dependent in your family. (Use our Third Stimulus Check Calculator to see you how much money you should have gotten.) But some people who were eligible for a third-round stimulus check didn't receive a payment or got less than what they should have received. For those people, relief was available in the form of a 2021 tax credit known as the recovery rebate credit.

However, there are no stimulus check payments in 2022. As a result, there is no recovery rebate credit for the 2022 tax year.
