

2013 MINI MISSIVE #14

REPLAY: FLAG OR WAIVE OFF FLAG

A replay review may result in a flag being thrown for the following fouls:

- [1] Forward pass when ball carrier beyond the neutral zone or after a change of team possession. (47)(51)
- [2] Illegal forward handing when ball carrier beyond neutral zone or after a change of team possession. (23)(48)
- [3] Ball carrier beyond neutral zone when he kicks the ball.
- [4] More than eleven players on field for either team during a live ball.
 - (a) Disregard departing player within one yard of sideline.
- [5] Non-player interfering with live ball action in field of play.
- [6] Free kick out of bounds when receiver did not touch kick. (3)(5)

Replay may “reverse” a call with the result of creating a foul:

- [1] Illegal touching of a forward pass by ineligible receiver by number. (57)
- [2] Illegal touching of a forward pass by originally eligible receiver after being out of bounds.
 - (a) Official does not make call or rules that offensive receiver was blocked out of bounds. (42)-(45)
 - (i) Replay shows that receiver was not touched.
 - (ii) Replay cannot rule on the severity of the contact.
- [3] Kicking team player goes out of bounds and returns inbounds.
 - (a) Official does not make call or rules that kicking team player was blocked out of bounds. (103)-(105)
 - (i) Replay shows that receiver was not touched.
 - (ii) Replay cannot rule on the severity of the contact.

A replay review may result in a flag being “waived off” for the following fouls:

- [1] Pass touched by player or official before pass interference flagged. (53)
 - (a) Foul could still be holding or a personal foul.
- [2] Pass touched by a Team B player before illegal touching flagged. (54)
- [3] Free kick touched by inbounds Team B player before ball goes out of bounds between the goal lines but is flagged. (4)
- [4] Punt blocked/touched by a Team B player when roughing or running into kicker flagged.
- [5] Pass did not cross neutral zone and ineligible receiver downfield flagged.
 - (a) Pass does not cross neutral when ball touched behind neutral zone.

NOTE: Replay “flagging” or “creating” a foul could result in offsetting fouls.
