

2015 REPLAY QUIZ #6

1. 1/10 @ A-10. A12 drops back into his own end zone to pass. The ball comes loose, and the ruling on the field is:
 - a. a fumble, recovered by A73 in the end zone, and advanced to the A-2 where he is tackled to bring up A - 2/18 @ A-2. Video shows that the ball came loose before A12's arm reached its foremost point.
 - b. an incomplete pass to bring up A - 2/10 @ A-10. Video shows that the ball came loose before any forward movement of A12's arm, and in the immediate continuing action, the ball is recovered by A73 in the end zone and advanced to the A-2 where he is tackled.
2. 2/5 @ A-35 early in the 4th quarter. A14's pass from the A-33 glances off A86's hands at the A-32. The muff strikes the ground and takes a wicked bounce which B24 leaps to control, and he is ruled to have possessed the ball inbounds before going out of bounds at the A-40. Video shows that B24 had firm control of the ball when his left foot touched inbounds, and that as he fell to the ground out of bounds, he
 - a. maintained control of the ball throughout to process of contacting the ground.
 - b. lost control of the ball as he contacted the ground.
3. 3/15 @ B-40. After A10's low pass is in flight, B65 is flagged for roughing the passer. The pass is close to the ground when B31 dives to intercept it, and in the process bats it upward into the hands of A87 at the B-20, who carries the ball across B's goal line. The covering officials rules that the pass:
 - a. is complete, but video shows that the ball touched the ground before it was batted upward.
 - b. is incomplete because the ball touched the ground, but video shows that it never did.
4. 4/10 @ B-15. The score is A-20, B-24 late in the 4th quarter. A32 carries the ball to near the B-5 where he fumbles. The covering official rules that the fumble occurred at the B-6, and the loose ball:
 - a. touched the sideline just prior to striking the goal line pylon, resulting in B - 1/10 @ B-6. Video shows that the ball did not touch the sideline.
 - b. struck the goal line pylon, resulting in B - 1/10 @ B-20. Video shows that the fumble occurred at the B-4, and the ball touched the sideline just prior to striking the pylon.
